

# OSM Orchestration Exercise

## Lab 11-3 - Further Examples

So far we have only run order that we expect to work (i.e they only have Mobile Product's). Let's run an example that has more than just Mobile.

1. Open the sample 'OSM7-DD-Lab11-3.xml'

 This is almost identical to the previous orders your have submitted  
 A new **OrderLine** section has been added to request a ADSL service

2. Submit the order and view it in the COM UI.
3. From the Order Information panel you can see that the Broadband OrderItem has been recognised, but has not been added to any of the Order Components.

**Order Info**

- Order 159 (In Progress)
  - Order Items
    - Broadband**  
SAMS-TOCO  
MOTO-200
  - Order Components
    - InitiateBillingFunction.BillingSystem.OrderGranularity
      - Associated Order Items
        - SAMS-TOCO
        - MOTO-200
    - ProvisioningOrderFunction.ProvisioningSystem.ItemGranularity
      - Associated Order Items
        - SAMS-TOCO
        - MOTO-200
    - FulfillBillingFunction.BillingSystem.OrderGranularity
      - Associated Order Items
        - SAMS-TOCO
        - MOTO-200
    - ShipOrderFunction.Shipping-InHouse.BundleGranularity
      - Associated Order Items
        - SAMS-TOCO
        - MOTO-200

4. Complete the order

**END OF LAB**
